

Covius Enhances RealtyBid Auction Platform

Denver, June 4, 2024—Covius, a leading provider of technology-enabled solutions to the financial services industry, announced today that it has added enhanced functionality to its RealtyBid™ online auction platform, including new search, mapping and data features that streamline and upgrade the user experience.

RealtyBid is a national online and live auction platform that has been helping sellers achieve expedited sales goals and buyers maximize investment for more than 20 years.

The new enhancements include:

- **Enhanced Search:** Users can effortlessly find investment opportunities by property type, purchase options, occupancy and auction types.
- **Detailed Mapping:** This new functionality provides users with a visual representation of property locations, adding to the ease and speed of property searches and bringing bidder engagement to the next level.
- **Enriched Property Data:** RealtyBid's strategic partner, Weiss Analytics, provides next-generation home price indexing, forecasting, analytics and home-specific repeat sales indices.
- **Overall Enhanced User Experience:** From robust user profiles to activity tracking pages and streamlined registration and login pages, every aspect of the platform has been optimized to ensure maximum usability and satisfaction for all users.

"These enhancements will support RealtyBid's primary goal – to function as an integral sales tool for those looking to sell properties in an accelerated timeframe while providing attractive purchase opportunities for real estate buyers," said Chris Link, Covius SVP-Asset & Default Management. "By incorporating the feedback of our users and leveraging the latest technology, we have created a platform that sets a new standard for online real estate auctions. When combined with our unique Deal Desk that helps bidders and sellers reach the reserve minimum, RealtyBid delivers the best combination of technology and auction experts to sell even challenged properties quickly."
